Washington, DC 20520

Dear Mr. DeLaBarre:

Enclosed is an application for a license (XSNM03330), recently received by the U.S. Nuclear Regulatory Commission, for the export of low-enriched uranium to Japan for use as reload fuel in the Takahama Units 3 and/or 4 and Ohi Units 1, 2, 3 and/or 4 nuclear power reactors. Assurances from Japan are required that the material will be subject to all of the terms and conditions of an agreement for cooperation. Your assistance in obtaining the necessary assurances will be appreciated. Please note that since the material was mined in the UK and China and enriched in France, we are also requesting your assistance regarding any foreign obligations, for example, if the Chinese Government must provide prior consent and if the information must be reported to EURATOM regarding this proposed export.

Sincerely,
