Tad - I bet you are really busy keeping all the Project Managers going down the right path. I know it's a big & responsible assignment. I trust you are enjoying the challenge.

I am on the Safety Review Committee for the Entergy BWRs in the Northeast and therefore I am on the NRC Service list for those plants. I have recently moved and the mailing from NRC are going to my old address. I would appreciate it if you could have the Service lists changed to reflect my new address:

Thanks Tad & best regards
