This was sent to Tom Hardgrove

Our preliminary assessment is it appears OK , however, a more formal reply will have to wait until we have a Geo-Tech take a look. I have opened a TAC and will get back to you ASAP.

Please docket this e-mail as an acknowledgment letter for the receipt of the settlement report. The start date for the 30 day clock should be November 6, as that is the date I was contacted by M. Hardgrove and asked to formally review the submittal.
