Revision to Vermont Yankee's 2002 Summary Report for In-service
Inspection (NIS-1 Report)

On January 9, 2003, Vermont Yankee Nuclear Power Station (VY) submitted to the NRC the 2002 Form NIS-1 Owner's Summary Report for In-service Inspections¹. The report described the in-service inspections performed during the period May 21, 2001 through October 25, 2002. Revision bars have been added to identify the two lines where data has been updated. No formal action or response is requested of the NRC for this revision.

Attachment 1 identifies the commitments contained within this letter. Attachment 2 contains the revised pages to the NIS-1 report.

If you have any questions on this transmittal, please contact Mr. Thomas B. Silko at (802) 258-4146.
