Subject: 'Amersham' Source

Ujagar,

I have just received a written confirmation from our manufacturing facility in Finland that all devices containing the old 'Amersham' source used the model 'AMM 2' foil source. This is how the source was identified by Amersham.

Does this help?

Regards,

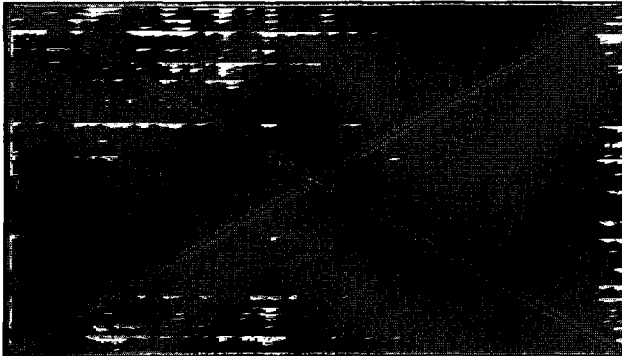

*is the past - AMM 2 ?
what is it now - ?*

Ujagar,

I have just received a written confirmation from our manufacturing facility in Finland that all devices containing the old 'Amersham' source used the model 'AMM 2' foil source. This is how the source was identified by Amersham.

Does this help?

Regards,
