

December 10, 2003

Gary Wright, Assistant Director
Illinois Emergency Management Agency
Division of Nuclear Safety
1035 Outer Park Drive
Springfield, IL 62704

Dear Mr. Wright:

In order to help both Agreement States and the NRC remain knowledgeable of each others' programs and to conduct planning for the next Integrated Materials Performance Evaluation Program (IMPEP) review, the IMPEP process includes holding one-day periodic meetings with Agreement States between reviews.

In accordance with State and Tribal Programs Procedure SA-116, we request a meeting, no longer than one day, to discuss your Agreement State program and share programmatic information. This letter confirms that, after previous coordination, the meeting is scheduled for January 20, 2004, and will be held in your offices. In addition to myself, Richard Blanton, Office of State and Tribal Programs, assigned as Project Officer for Illinois, Geoff Grant, Deputy Regional Administrator, and Marc Dapas, Director, Region III Division of Nuclear Materials Safety, will participate in the meeting. **This meeting was previously scheduled in December 2003 but was changed due to scheduling conflicts.**

Based on our previous discussions the likely topics for conversation at the meeting include:

1. Strengths and/or weaknesses of the State program as identified by the State or NRC, including identification of actions that could diminish weaknesses.
2. Feedback on NRC's program as identified by the State and including identification of any action that should be considered by NRC.
3. Status of State program or policy changes under development or recently completed including:
 - a. Changes in program staff
 - b. Program reorganizations
 - c. Legislative changes
 - d. Redistribution of responsibilities
 - e. Changes in program budget/funding.
4. Status of NRC program changes (similar to those in 3.) that could impact Agreement States.
5. Results of any internal program audits/self assessments conducted by the State.

G. Wright

-2-

6. Status of all allegations and concerns previously referred by NRC to the Agreement State Radiation Control Program for action, and methods used to resolve allegations that have been closed.
7. Compatibility of Agreement State regulations.
8. NMED reporting, including event follow-up and closure information.
9. Schedule for the next IMPEP review (tentatively scheduled for early 2005).

If there are any additional specific topics you would like to cover, or if you would like to focus on a specific area, please let me know.

If you have any questions, please call me at (630)829-9661, or e-mail to JLL2@NRC.GOV.

Sincerely,

/RA/

James L. Lynch
Regional State Agreements Officer
