SUMMARY

The licensee was informed that it is now included in the RIII Broad Scope Initiative.

Organization/Staffing Changes:

None.

New Processes/Activities:

None.

Events/Self-Identified Violations or Safety Concerns:

During a sealed source inventory check, the licensee identified a lost Cs-137 calibration source containing 250 microcuries. The licensee made the telephonic notification on 11/19/03 in accordance with 20.2201. The licensee was aware that the 30 day written report is due on 12/19/03. The source was stored in a pig within a room that was properly secured. The licensee suspects that the source was part of a recent radioactive waste shipment, and it is currently trying to verify it. The licensee conducted a thorough search, but it could not locate the missing source. The staff were made aware of the missing source and informed about what to do if it is found. The licensee plans to call RIII if the source is found.

Radiation Dose Trends:

Whole body and extremity doses are continuing to down-trend.

Major Processing Schedule Changes:

None.

ACTION REQUIRED

Place in ADAMS.
