RE: USNRC License No. 37-00030-08 (Control 94003)

Dear Sir:

As you may be aware, United States Radium Corporation, Nuclear Products Division, has recently changed its corporate name to Safety Light Corporation.

As discussed, during one of your last plant visits, we would like to incorporate this change and the resultant operational changes in the renewal of the captioned license. As you suggested, we are re-submitting our entire renewal application in place of the one originally sent to you in 1978.

Please advise if the original renewal fee does not cover this re-submission.

Should you require any additional information, please do not hesitate to contact us.

Very truly yours,
SAFETY LIGHT CORPORATION

Jack Miller
