MEMORANDUM FOR: Hubert Miller, Chief
Repository Projects Branch
Division of Waste Management

FROM: Lake Barrett, Chief
Engineering Branch
Division of Waste Management

SUBJECT: TRANSMITTAL OF DESIGN USTP'S

Enclosed are the Design/Rock Mechanics USTP's for BWIP and NNWSI. Transmittal of these USTP's is in accordance with completion of Operating Plan Commitment Milestone Numbers 5314215.32 and 5314216.33. Design/Rock Mechanics Umbrella Site Technical Positions were written following the "Guidance for Development of Umbrella Site Technical Positions (USTP's)" document distributed on August 6, 1984.

Repository Projects Branch staff comments have been incorporated into the final USTP's. On Tuesday, August 21, J. Buckley and D. Tiktinsky of the Engineering Branch met with C. Pittiglio, K. Stablein and K. Parr of the Repository Projects Branch to resolve USTP content and format inconsistencies. Agreement was reached regarding all issues in these USTP's. The USTP for Salt medium is under preparation and will look identical to the BWIP and NNWSI USTP's in format. The second tier issues will be altered as necessary to reflect unique features to repository design in Salt.
