Waste Management, HQ

RESCHEDULE OF BWIP AUDIT OF WESTINGHOUSE HANFORD CO.

The March 1987, QA audit of Westinghouse Hanford Co. (WHC) by this office has been rescheduled to the week of October 5-9, 1987. The change of plans is based on the following facts:

- 1) Transition from Rockwell to WHC as site operating contractor and BWIP Integrating Contractor is targeted for completion on approximately July 1, 1987. Transition includes transfer of ongoing BWIP research and development laboratory work from WHC to Pacific Northwest Laboratory (PNL), where the work will be performed under the PNL QA program, audited in January 1987.
- 2) WHC BWIP activities have been subjected to several DOE-RL surveillances during the past six months and are scheduled for additional surveillances between now and July. Our surveillances to date have shown WHC to be in satisfactory compliance with their approved procedures.
- 3) The October audit will enable us to assess three months of WHC's performance as Integrating Contractor.

O. L. Olson

for John H. Anttonen, Assistant Manager
for Commercial Nuclear Waste
