Dear Mr. Linehan:

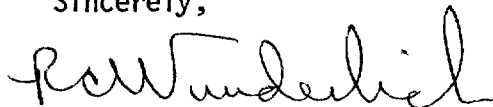

SUBJECT: DATA BASE TRAINING

In response to several requests for data base training to be offered to the states, SRPO has arranged a three-day session on October 29, 30 and 31, 1985. The data bases covered during this time period will be the Technical Data Base (TDB), the Records and Information System (RIS), the Catalog and the Records Turnover Package Data Base (RTP).

In order to keep the training as an easily manageable group but still accommodate all interested people, we request that you attempt to keep the number of people you send to three (3). However, since the training requests have included the desire for some contractors to be included, please respond with as many people as you need to include and, if necessary, we will plan a second session.

Please contact Sarah Starr of my staff, (614) 424-5916, with your questions or your response by October 7, 1985.

Sincerely,

for 
J.O. Neff
