FROM: Walt Kelly  
Geochemistry Section, WMGT

SUBJECT: TOPICAL REPORT, "BRINE MIGRATION IN SALT"

Attached is a draft topical report that I have prepared on brine migration in salt and its potential effects on site performance. The report discusses the nature of fluids in salt, the theory of brine migration, the major work that has been performed to date in this area, and data needs and uncertainties concerning assessment of site performance. If you have any comments on this report I would appreciate receiving them by September 23, 1985. Thank you.
