Division of Waste Management
Office of Nuclear Material
Safety and Safeguards
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Linehan:

SUBJECT: HYDROLOGY DATA REVIEW AND PROPOSED DATA EXCHANGES

This is in response to your May 8, 1984 letter on this matter. I look forward to seeing you here in Columbus for the hydrology data reviews on May 15-18, 1984.

However, with respect to your suggestion for future topics and dates, please be aware that I cannot, without some discussion, commit to these dates or topics. It was my understanding, as a result of our meeting during the last salt state bi-monthly, that we would go through the first review and then mutually discuss appropriate follow-on activities and schedules.

I am also providing a copy of this response to each of the salt states so there will be no misunderstanding regarding any proposed near-term meetings in various technical areas.

I look forward to discussing this matter with you further.

Sincerely,

Jefferson O. Neff
Program Manager
Salt Repository Project Office
