MEMORANDUM FOR: Robert E. Browning, Director
Division of Waste Management

FROM: Tilak R. Verma, Senior On-Site
Licensing Representative

SUBJECT: SRP SITE REPORT FOR THE WEEK OF OCTOBER 8, 1984

1. On October 9, 1984, I attended a technical demonstration of accessing the Technical Data Management System (TDMS). The demonstration was given by M. Golis of ONWI. It is my observation that TDMS is biased toward the inhouse work done at ONWI.
2. On October 10 and 11, 1984, I attended the Salt Team Meeting and then met with each of the groups separately and reviewed with them their efforts for preparations for the draft EAs review. Once again, I told each group that I am available to assist them and that they should take advantage of my presence in Columbus. I also told them that they should keep me informed about the work they are doing. During these meetings I learned that the Engineering and Geochemistry groups prepared trip reports after their data review meetings in Columbus and these reports were never sent to me. I also learned that the Geology and Geophysics group had a scoping meeting with their contractors and meeting notes were never sent to me.
3. Salt Project Management (Johnson and Linehan) was briefed after my meetings with different groups working on salt team.
