Mr. John G. Davis, Director
Office of Nuclear Material Safety
and Safeguards
United States Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Davis:

This is in response to your recent letter requesting the State of Texas to designate a primary contact for NRC coordination with this state. I appreciate your inclusion of the legislative leadership in this matter. However, at this time I feel it is best that the designation of a primary contact be left to Governor White. The Legislature has not, to this point, acted formally to establish its own independent review procedure on this issue and the responsibility has largely been left to the Governor. However, I would like to reserve the right to designate a contact on the part of the Legislature at a later time if the need arises.

Again, I appreciate being informed on this matter.

Sincerely,

Bill Hobby
