Use Of Telecon

Discuss contents of Telephone Conference Report No. 75100-86-085

dated June 20, 1986 (copy attached)

Text Of Telecon

Mr. Krupar reported that contrary to my report, Mr. Kien Chang (US NRC/WMEG) made no attempt to contact him after a conversation he had had with Mr. Chang on June 17, 1986, during which Mr. Krupar informed Mr. Chang that a BWIP Waste Package Workshop would not be scheduled until after a management meeting between DOE-RL and NRC was held. A careful review of logs and records for the 6/17 through 6/19 period revealed no record of further attempts by Mr. Chang to contact Mr. Krupar prior to his call to me on June 19, 1986.

Purpose Of Telecon

Returned Mr. Chang's call to me on 6/19/86

Text Of Telecon

Mr. Chang related that he had attempted to contact J. Kruper (DOE-RL) and when that was unsuccessful, he decided to call me. He expressed NRC's interest in making an informal visit to BWIP to review the status of waste package design and testing programs and the status of the SCP, Chapter 7. No formal presentations would be required and the visit "would not interfere with ongoing work." He stated that he had proposed to his boss, Paul Hildebrand, that the visit take place July 8-10, 1986, and that his boss would be in touch with J. Mecca. I advised him that we were now planning to put together a major total project review presentation for a visit by senior DOE-HQ management on July 15-17, 1986, and that all waste package management would be involved in a dry run on July 8, 1986. He asked if any of the information to be presented would be "sensitive." I offered the opinion that it would not be. I verbally informed G. Jackson and P. LaMont of this call and left a message with J. Mecca asking that he call me.
