Mr. Harold Le Fevre  
Division of Waste Management  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Le Fevre:

We are pleased to to honor your request and provide you the enclosed set of the recent "four-state" geothermal resource assessment study entitled, "Evaluation and Ranking of Geothermal Resources for Electrical Generation and Electrical Offset in Idaho, Montana, Oregon, and Washington." This work was completed for the Bonneville Power Administration (BPA) by specialists of the four-state energy offices whose states are represented in the report.

If you have further questions, you can call Tom White of my staff at FTS 429-4386 who will be happy to answer them. Also, in case you are interested, BPA's project manager was John Geyer (FTS 429-5327) who is quite familiar with the development of the study and the methodology used in the evaluation and ranking process.

Sincerely,

  
Walter E. Meyers, Director  
Division of Resource Engineering
