

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

May 10, 1985

Mr. O. L. Olson
U. S. Department of Energy
Richland Operations Office
BWIP Project Office
P. O. Box 550
Richland, Washington 99352

Dear Mr. Olson:

While visiting the local NRC document reading area for the public in the Richland Library yesterday, I was informed by the person in charge of maintaining the NRC records that a RHU employee had in the past removed documents from the reading area and replaced them with other documents. The specific documents which were removed were early issues of the BWIP Accessions List. A later version of the List was given to the person in charge, however, the new List does not contain all the information (lists of documents) contained in the earlier List.

We request that documents not be removed from or added to the reading area's document files. Those documents are intended for public review and use and to indicate to the public the information pertinent to project activities available to the Staff for its considerations.

Please advise the respective DOE contractors who may have opportunity to visit the reading area of our desire to maintain an accurate and complete file.
