

Dr. Robert E. Browning MS 62-55

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

October 26, 1987

Mr. J. H. Anttonen
Assistant Manager for Commercial Nuclear Waste
Richland Operations Office
U.S. Department of Energy
P.O. Box 550
Richland, Wa. 99352

Dear Mr. Anttonen:

The purpose of this letter is to notify you of the assignment of Richard Galster to this Office during the period October 29 and 30, 1987 with an objective of reviewing detailed information concerning stratigraphy of the area (see attachment A) on Friday, October 30. Mr. Galster, who is a consultant for the NRC, plans to be in Richland for the CERT Workshop on Wednesday and Thursday. Mr. Galster's activities will be consistent with the provisions in Appendix 7 of the NRC/DOE Site Specific Agreement.

The personnel with whom contact is desired are Mr. M. C. Haygood, Mr. K. R. Fecht, Mr. T. L. Tolan and Mr. R. W. Cross. The expected extent of time needed with each person individually is about an hour. Mr. Galster will need a visitors access badge for the Peoples Bank Building and the Hill Street Office spaces. He does not have a security clearance. I plan to be his escort, however, if an escort can be arranged, that would be more desirable. I will proceed to arrange the detailed schedule for Galster's interactions with Sue Price.

I will inform you and/or other DOE and WHC management of any items and concerns which I believe would be of interest to DOE consistent with my objective of providing such feedback of information.

Sincerely,

151

F. Robert Cook
Senior On-Site Licensing
Representative, BWIP

It seems Galster
wants to talk
about with the
respective people
THU

1. Emerson Nipple Sectn - confirm my colls on units.
2. Elevation control (510 @ road level for just below base of McCoy Canyon (GR-13))
3. confirm GR picks @ Sentinel Gap.
4. Elevation & coordinates - Reidel's isopach control in Saddle Mountains
5. Wallula Gap Section
6. Best guess of Museum flow at Vantage & Sentinel Gap (GR-3?)
7. Obtain all of 344P where Haygood's paper on HHH is.
8. Vertical & horiz control on Haygood's work in HHH.

9. Vantage GR section designations French Hills both sides.
10. Resolve discrepancy ~~between~~ Frenchman Springs Section in DH-4 between log and ^{TI-}293 P _{B-8} ^{see structure Appendix on original}
11. Title of RH0-BW-SA-463Z. Release date of text and other plates.
12. Vertical control? on sections by John Bush
 to Dwg's 4-06-4602-1 thru 14
 Geo Sci Res. Const. Plates.
 Bush. Grd Sheet
13. Control and exact locations of ^{Grd Sheet} Taylor's sections. Sentinel Gap
14. F.S. section @ Sentinel Gap shows 612', 502' and 510' on SA-463Z maps. TI-29 only adds up to 365'. Resolve.
