DEC 9 1983

Mr. J.O. Neff
Salt Repository Program Manager
U.S. Department of Energy
National Waste Terminal Storage Program Office
505 King Avenue
Columbia, Ohio 43201

Dear Mr. Neff:

This letter is in response to your October 14, 1983 letter to me requesting various kinds of information from NRC (see Enclosure 1). We have responded below to all but your third and fourth requests, which will be answered in the new few weeks.

Updated Listing of Ongoing and Completed NRC and NRC Contractor Reports (Request 1 and 2)

A listing of selected NRC and NRC contractor reports, both released and in-process is near completion and will be sent directly to you next week. Copies will also be available for next week's Civilian Radioactive Waste Management Information Meeting. This listing is a selection of NRC guidance products and other staff and contractor reports which we believe closely reflect our positions and thoughts on various issues and concerns at this time. I will inform you of our plans for providing complete listings of our released and in-process reports in the next few weeks.

List of Public Document Room Documents (Request 5)

We are giving you a copy of the High-level Waste General File (Enclosure 2) which is in NRC's Public Document Room. As Donna Mattson discussed with you we are also attaching the Salt File (Enclosure 3) which will be sent to the PDR next week. This is the list that the Division of Waste Management sends to the PDR rather than the actual PDR list. Periodic updates of both lists will be given to you.

Current NRC/WM Organization Charts and Update (Request 6)

We have presented our organization chart and various updates at our first meeting in April 1983 and then subsequently at meetings in September,

WM Record File 106
WM Project 16

October, and November as our reorganization evolved. We will continue to inform you as changes occur.

Agreements With Other NRC Offices

As has been made clear in our past conversations and in the DOE/NRC Procedural Agreement, our established NRC contacts within NMSS/WM speak for NRC in the area of geologic repositories. Our working relationships with other NRC offices are consistent with this responsibility.

Sincerely,

"ORIGINAL SIGNED BY"

Hubert J. Miller, Chief
Repository Projects Branch
Division of Waste Management

Enclosure:

1. October 14, 1983 Letter from J.O. Neff to H. Miller
2. High-level Waste General File in PDR
3. Salt File
