Mr. David Holt

P.O. Box 305  
Lapwai, Idaho 83540

Dear Mr. Holt:

As discussed in our telephone conversation, I am enclosing copies of the Nuclear Regulatory Commission's document listings for the high-level waste program. Included are listings of Waste Management reference and technical reports for all of the potential repository sites, as well as the correspondence logs. Much of the material is in the NRC Local Public Document room located in the Richland, WA Public Library and copies can be obtained there. However, if you review the listings and find that, initially, you need some specific documents for your work, please let me know and I'll make every effort to get them for you. Documents originating from the Department of Energy should be obtained from the DOE.

It was good to finally meet you in Washington, D.C. last week and I'm looking forward to working with you in the future.

Sincerely,

*for Catherine F. Russell*
