JAN 21 1982

Mr. Donald Ford
Department of Natural Resources
Olympia, WA 98504

Dear Don:

Last week I, and some other members of the Nuclear Regulatory Commission, made another visit to the Basalt Waste Isolation Project at Hanford, concentrating this time on hydrogeology.

On the 14th I called at the offices of the Department but learned that you were out of town. I did have a pleasant visit with Ted Livingstone.

It occurred to me that you might be interested in the results of an NRC visitation to BWIP during September 1981. At that time, we attempted to cover a fairly broad range of project activities. Two copies of the trip report are enclosed.

If you have any questions or comments on the report, please pass them along by mail or telephone (301) 427-4177.

Sincerely,

ORIGINAL SIGNED BY

Robert J. Wright
Senior Technical Advisor
High-Level Waste Technical
Development Branch
Division of Waste Management
