Dear Ms. Henry:

The Division of Waste Management has the lead responsibility for coordinating all NRC actions mandated by the Nuclear Waste Policy Act (NWPA) of 1982 in the high-level waste (HLW) area. In our continuing effort to work closely with the states and Indian tribes in fulfilling this responsibility, I have been assigned to assist Ms. Cathy Russell as the point of contact for interactions regarding the siting of a HLW repository in Washington State. Unfortunately, Ms. Russell has been ill, and the date for her return is uncertain at this time. Therefore, please feel free to contact me if you have any questions or need information in the HLW area. My address and telephone number are listed below.

Alma Hale, Project Manager
 State/Tribal Participation
 U.S. Nuclear Regulatory Commission

Also, per your recent request of Ms. Mattson, I am enclosing a list of the high-level waste principals here at the Division of Waste Management along with their mailing addresses and telephone numbers.

Again, if I can be of any assistance, please don't hesitate to write or call me. I look forward to working with you.

Sincerely,

/s/
