MEMORANDUM FOR: Dr. Robert Jackson, Chief
Earth Sciences Branch
Division of Engineering

FROM: Robert J. Wright
High-Level Waste Technical
Development Branch
Division of Waste Management

SUBJECT: PARTICIPATION BY DR. INA ALTERMAN IN THE REVIEW OF
THE BWIP SCR

This letter confirms the conversation between yourself and Dr. Philip Justus concerning Dr. Alterman's limited participation in the review of the BWIP SCR scheduled to begin November 15, 1982.

It is contemplated that Dr. Alterman will review Chapters 3, "Geologic Description of the Reference Repository Location and the Surrounding Area" and 13, "Site Issues and Plans." She should give particular attention to portions of the text that refer to or are related to the WNP-2 SER and SSER.

It is suggested that Dr. Alterman's deliverables, due December 3, consist of notes in the margins of the chapters, handwritten specific comments and a short letter summarizing her general reaction to the document.

The geologic stability team has scheduled a meeting at 10:00 a.m. on Monday, November 15 in room 440 of the Willste Building to discuss details of the SCR review. It would be appreciated if Dr. Alterman would attend this meeting. A copy of the SCR, for your and Dr. Alterman's use, will be given to Dr. Alterman at that time.
