SUBJECT: PARTICIPATION OF JEFFREY KIMBALL IN THE REVIEW OF
THE BWIP SITE CHARACTERIZATION REPORT

This letter confirms the conversation between yourself and Dr. Philip Justus concerning Mr. Kimball's limited participation in the review of the BWIP SCR scheduled to begin November 15, 1982.

It is anticipated that Mr. Kimball will review relevant parts of Chapter 3, "Geologic Description of the Reference Repository Location" and Chapters 13 and 14 (site and design issues and plans). He should pay particular attention to sections of the report that: 1) refer to the WNP-2 SER and SSER and 2) may impact the three topic reports on seismic issues at BWIP that Mr. Kimball has written. In addition, he will review the NRC issue analysis on seismic hazard at BWIP.

It is suggested that the deliverables, due November 29, consist of notes in the margin of the SCR text, and in the NRC issue analysis, and mark-ups of his three topic reports, if any revision is necessary.

I'm pleased that Mr. Kimball was able to attend the geologic stability team meeting at 10:00 A.M. on Monday, November 15 to get specific instructions on his review and to participate in the team discussions. He should work from the SCR that you now have.

- 2 -

Thank you very much for your cooperation. If you or Jeff Kimball have any questions please call Paul Prestholt at X74597.
