PLAN TO ADDRESS OUTSTANDING LSS ISSUES

The Commission has approved the four components of the proposed strategy for addressing current LSS issues. In implementing this strategy to address LSS issues, the staff should make full use of the flexible procurement processes provided by the Information Technology Management and Reform Act of 1996. The staff should provide estimates of the resources needed, and describe any reprioritization impacts associated with those resources, to complete the consensual process (p. 9) in the six-month time frame noted in the staff response to Commissioner Diaz's questions.
