MEMORANDUM FOR: Larry White
Division of Waste Management

FROM: W. Mark Grayson, WM

SUBJECT: REVISION OF 10CFR60 SUBPART B

Here are the revised design criteria which I promised you by March 21, 1979. They are necessarily incomplete as the development of criteria isn't synchronized with the technical support program. Please refer back to my previous memo dated March 5, 1979 for additional comments on structure and specific comments on criteria.

If you have any comments or questions on my previous memo or the revised criteria, don't hesitate to ask for clarification.
