

Statement of Work

Randall Manteufel

June 1, 2000

This position as a technical specialist to the SwRI Quality Assurance Audit Team requires a person who has had a diverse background in modeling and interaction of physical properties, to provide an additional technical component to the Audit Team. The work will be to review Operations Plans and products of the CNWRA, develop a technical specialist audit checklist to be utilized in the audit, conduct the audit interviews, provide a preliminary report for the post-audit meeting, and provide a complete, final report within two weeks of the post-audit meeting.
