

STATEMENT OF WORK FOR U.S. GEOLOGICAL SURVEY
JUNE 24, 1999

Dr. Delaney will participate in a review of the NRC/CNWRA Total-System performance Assessment (TPA) Version 3.2 computer program. His review of TPA 3.2 will focus on the manner in which the probability and consequence of volcanic activity are modeled. Dr. Delaney will review written materials provided to him prior to the meeting, participate in the external review meeting, and prepare a formal written report that will be used as a partial basis for the CNWRA external review report.
