OK for me.

>>> Henry Lee 02/06/02 09:59AM >>>

Bob: How about 2/11 Monday morning at 8 or 8:30am sounds to you?

>>> Robert Shewmaker 02/06/02 09:20AM >>>

There are conflicts on 2/12 at the 1:30 - 3:00 time slot.

HOLTEC is in from 10:00AM to 3:00PM

Guttmann has schedule a conf call with Boeing at 1:30.

We may both be in the HOLTEC mtg and I am supposed to be on the conf. call with Jack.

What about earlier like 8:30AM?

Subject: Structural Group Meeting on Vulnerability Assessment
Place: O12-B6

It becomes quite clear that the Structural Group must meet ASAP to discuss the best approaches to support the Vulnerability Assessment. We need to discuss what tools (computer codes) are available to us; what results can we reasonably expect to obtain? ;and who is available to do what. We must also decide the scope and type of work to contract out in order to best support this effort and to meet our tight schedule. Thanks.
