Subject: RE: Draft NRC Meeting Summary for March 9 and 10 visit to Framatome

Tim,

Rod Krich asked me to forward the following comment on the draft meeting summary to you.

I have reviewed the draft meeting summary and did not identify any information that could be considered proprietary. The information presented in the summary is consistent with the discussions held with the NRC. However, I have a minor comment. In the list of attendees, I am identified as being affiliated with Framatome instead of EXCEL.

Thanks,
Dan Green
EXCEL
