Subject: Re: Fwd: Alternative two-day agenda

nmss

Bernie:

I would like to change thermal and small planes to Wednesday, and add the following items:

1. Status of the Boeing contract
2. Uncertainty analysis
3. Action items

This may allow us to leave on Thursday, or if we wish to continue discussions in details, we may stay longer. Thanks.

Mahendra

>>> Bernard White 08/05/02 12:06PM >>>

attached is an alternative agenda which puts all the structural items first, the logical flow to me, and then thermal source term etc. At the end of Wednesday, assuming we get through it all, the structural people could either

fly home Thursday,
sit through the rest of the items, or
get together with the SNL structural people to talk more about the nitty gritty details.

I think this agenda covers all of the concerns the structural people had about sitting through all the items. If this satisfies you then our conference call today would not take place.

Please let me know.

Bernie
