Subject: SFPO INPUT TO ROSANO ON MARKEY #G20020691

At 1:00PM today I met with Dick Rosano regarding the above GREEN ticket.

I gave him the attachment hereto and a copy of the SFPO SNL contract, J5412, Rev 1, in response to an item identified as Markey Question 3.

I alerted him to the fact that the contract may contain information that some might consider important for security reasons, and that its scope is broader than aircraft initiated events, and the contract document contains the names and phone numbers of many staff members in SFPO.

From his explanation the concept of the current draft response is a paragraph that provides no specific details on contract dollars, scope of work, parameters etc.

**SFPO INPUT FOR MARKEY GREEN TICKET**

**#G20020691**

**LEAD: NSIR - Rosano**

This input is based on the E-Mail of 12/13/02 from Dorman to Rosano - "Re: Aircraft --- What Else?"

SFPO Contract with Sandia National Lab, J5412, Rev. 1

Projected cost : \$4009K

FY 02 cost: \$1170.1K

Oct 02 cost: \$ 185.1K

Nov 02 cost (Costs not yet reported)

Assumptions and parameters being used or may be used in the future are classified. It should be noted that some of the work is being done as parametric studies/assessments.

Draft and preliminary reports, status and progress reports are classified.
