Well it appears that the two structural guys we want to talk with at Sandia are not in today, so we are going to have the phone call on Monday. Is Monday afternoon at 3pm (right after the awards ceremony) good for everyone?

Bernie

Bernie: Doug definitely isn't in today, and Jeff didn't return a phone call, so he probably isn't in today. So let's hold this conference call on Monday. Jeremy

Jerry,

Are Doug and Jeff into work today??? If not, lets do the phone call on Monday.

when can we expect the next draft from you. Hint, hint, this month sometime would be good

Bernie

Subject: Phone call tomorrow

Jerry,

I would like to have a phone call tomorrow afternoon (our time) to have a similar discussion that we had on Tuesday on the large plane evaluation. I would like for your structural engineers (Jeff and Doug, at least) to give us a quick overview where we are and where we are going in terms of performing calculations. I think that Chris has a handle on the thermal issues (right Chris??). If not lets do that at another time because I think the structural issues will take us a significant amount of time.

Please let me know ASAP if you want to do this in a classified nature.

Thanks
Bernie
