Shell Oil Company
Attention: Dr. Stephen Maillet
200 N. Dairy Ashford
Houston, TX 77079

Dear Dr. Maillet:

As we discussed during our recent telephone conversation, the NRC is interested in having the opportunity of sending one or two staff members to your office to examine some geophysical data that Shell Oil Company has collected in the vicinity of the Hanford Site near Richland, Washington. The purpose of this visit would be to examine the data and discuss the methods used to collect it, so we can determine its potential value to the DOE characterization of the Hanford Site. We understand and respect Shell Oil Company's consideration that the data is of a proprietary nature.

Please contact me at (301) 427-4211 if there are any questions concerning this request. I greatly appreciate your effort and cooperation in this matter.
