SUBJECT:               ISSUANCE OF ENVIRONMENTAL SCOPING MEETING SUMMARY  
REPORT RELATED TO THE INTENT TO PREPARE AN  
ENVIRONMENTAL IMPACT STATEMENT FOR THE LOUISIANA  
ENERGY SERVICES NATIONAL ENRICHMENT FACILITY

TO DISTRIBUTION LIST:

On March 4, 2004, the U.S. Nuclear Regulatory Commission (NRC) staff held a public scoping meeting in Eunice, New Mexico to discuss the environmental review of the Louisiana Energy Services National Enrichment Facility, and to obtain public comments on the scope of environmental impacts to be addressed in an Environmental Impact Statement (EIS).

The NRC staff has prepared the enclosed Environmental Scoping Summary Report identifying comments received at the March 4, 2004 environmental scoping meeting. In addition to receiving comments at the public meeting, the staff accepted written public comments through March 18, 2004. Comments received after this date were considered to the extent possible in preparing the scoping summary report. The scoping summary report describes the scoping process and discusses the significant issues and concerns raised. It also discusses the alternatives to be evaluated, the scope of the EIS, and addresses issues considered to be beyond the scope of the EIS.

In accordance with 10 CFR 51.29(b), you are being provided a copy of the scoping meeting summary report. The report is available for public inspection in the NRC Public Document Room located at One White Flint North, 11555 Rockville Pike Rockville, Maryland; or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS) under accession number ML041050128. A copy of the meeting transcript is also available at ML040791008 ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Public Electronic Reading Room (PERR) link.
