TO: TECHNICAL WORKING GROUP - PROPOSED REPRESENTATIVES:

John Gandi - DOE
Don Graser - NRC
Lloyd Mitchell - NCAI

Dr. Tom Nartker - UNLV
Dr. Kasim Taghva - UNLV
Dr. Fielden Dickerson - YMP M&O

The Licensing Support System Advisory Review Panel (LSSARP) met in Las Vegas on December 12-13, 1994. During that meeting it was proposed and unanimously voted that the LSSARP form a Technical Working Group (TWG). Clark County Nevada, as one of the Affected Units of Local Government (AULG), volunteered to chair the working group and nominated Roger Hardwick, Systems Engineer from the Clark County Comprehensive Planning Department, Nuclear Waste Division to organize and chair this working group.

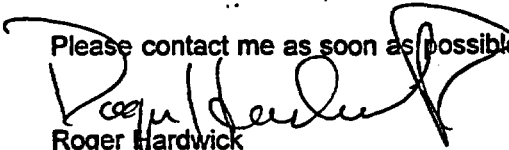

You have been nominated as a potential member of the working group. The TWG will consists of a representative from the Department of Energy (DOE), Nuclear Regulatory Commission (NRC), Affected units of local Government (AULG), University of Nevada Las Vegas (UNLV) Information Science Research Institute (ISRI), National Council of American Indians (NCAI), industry technical advisor on information storage and retrieval technology, and a representative of the Yucca Mountain Project (YMP), Management and Operations contractor (M&O).

The charter of the LSSARP TWG will be to monitor the technical aspects of LSS development and evolution and advise the LSSARP on LSS technical issues and concerns at each meeting of the LSSARP.

The initial task for the working group is to review the LSS requirements document that has been prepared by the YMP M&O contractor and to review and comment on the LSS Participants Commitments document prepared and distributed by the NRC. It is anticipated that there will be a meeting of the TWG mid to late February in Las Vegas, Nevada, in preparation for the March 22 & 23, 1995 meeting of the LSSARP in Las Vegas.

As chairman of this working group, I will be the focal point and facilitate the TWG. I will distribute copies of the LSS requirements document as soon as it becomes available, compile comments from the working group members and put together the presentation for the LSSARP. Approximately two weeks after I distribute the LSS requirements document I will contact each TWG member individually to determine an agreeable date for the February TWG meeting in Las Vegas.

Please contact me as soon as possible to either accept or decline this nomination. I can be reached at:
