Washington, DC 20555

Dr. Paul B. Abramson, Esq.
Administrative Judge
Atomic Safety and Licensing Board
U.S. Nuclear Regulatory Commission
Washington, DC 20555

In the Matter of
Private Fuel Storage L.L.C.
(Independent Spent Fuel Storage Installation)
Docket No. 72-22-ISFSI

Dear Administrative Judges:

On April 20, 2004, the NRC Staff ("Staff") served upon the Atomic Safety and Licensing Board, Counsel for the State of Utah ("State") and Counsel for Private Fuel Storage, L.L.C. ("PFS") the Staff's evaluation of F-16 aircraft crash angles and speeds entitled, "NRC Staff's Evaluation of Aircraft Impact Speeds and Angles Considered by Private Fuel Storage, LLC in its Analyses of Skull Valley Type Events" (Campe, K. M., Ghosh, A., April 20, 2004).

The Staff has identified several inadvertent errors or omissions in Tables 2 and 3 of that report (and in various Figures related to Table 3), which it wishes to correct at this time. Enclosed are nine replacement pages which should be inserted in your copies of that report, in lieu of incorrect pages 13, 18, 22, 23, 33, 34, 36, 37, and 38. Copies of the corrected pages were distributed to Counsel for PFS and the State earlier today.

We regret any inconvenience which this error may have caused.

Sincerely,

A handwritten signature in cursive script, reading "Sherwin E. Turk".

Sherwin E. Turk
Counsel for NRC Staff

cc w/Encl.: Service List

Table 2. Ground impact angles.

Exhibit No.	Accident Date	NRC	PFS
		Impact Angle (degree)	Impact Angle (degree)
PE 80	25 May 1990	11*	11
PE 113	3 September 1990	65*	65
PE 115	20 September 1990	5**	≤45
PE 125	4 April 1991	90**	85
