Subject: Confirmation

Tim,

This to thank you for the time that you spent with us on Tuesday the 2nd. We appreciate your cooperation and help. We need to confirm this statistics that we obtained from you verbally. The Hobbs water system maximum capacity is around 23 million GPD and it can provide up to 25 million GPD for a short term burst. The nominal pumping supply is approximately 12.8 million GPD, however.

Please confirm .

Thank You

Abe Zeitoun
