

ATL TEAM

PERSONAL COMMUNICATION NOTES

DATE: 08 / 02 / 2004 TIME: 2:30PM PROJEC TITLE: LES EIS in NM

BETWEEN: AL RAFATI, VP OF: Envirocare LOCATION: Salt Lake City, UT
TELEPHONE No.: (801) 580-9191

AND: Abe Zeitoun of ATL Team (the caller) TELEPHONE No.: (301) 515- 6770

DISCUSSION:

Mr. Rafati was contacted to discuss the potential disposal costs of converted DUF6 at Envirocare and to confirm that Envirocare would accept the LES byproducts. Mr. Rafati indicated that Envirocare has met with LES last week to discuss the LES project and the potential disposition of DUF6 that would be generated at Envirocare. LES has shared with Envirocare the costs presented to the NRC in the SER and other documents. Mr. Rafati stated that the cost ranges presented to Envirocare seemed reasonable. He indicated, however, that there are uncertainties associated with these estimates because the action of receiving the converted DUF6 would occur sometimes in the next decade.
