**Subject:** USEC Licensing Documents

Yawar,

I'm so sorry that you do not have your additional copies yet. We have been having printing problems. You should receive the Fundamental Nuclear Materials Control Plan, Decommissioning Funding Plan, Security Program, and the Quality Assurance Program Description tomorrow morning by 10 a.m.

The rest of the documents will be shipped out tomorrow with a requested delivery of Friday morning. This is a huge shipment (with several boxes) and all of the boxes are very heavy, so I'm hoping not to have any problems with the delivery. The documents have been assembled as the entire document (with proprietary and ECI included in the appropriate appendices). The ISA Summary and the Addendum 1 of the ISA Summary are contained in one notebook with the License Application and Environmental Report contained in a second notebook. Do you need any additional CDs? Just let me know before 2:30 tomorrow so I can still get them in a federal express.

Thank You!
