PERSONAL COMMUNICATION NOTESDATE: 6 / 1 / 2004 TIME: 4:40 pm PROJECT TITLE: LES EIS for NMBETWEEN: Dana Simonsen OF: Envirocare, Inc.LOCATION: Clive, UT TELEPHONE No.: (801) 532-1330AND: Abe Zeitoun & Don Palmrose of ATL Team (the caller) TELEPHONE No.: (301) 515-6770**DISCUSSION:**

Mr. Simonsen was contacted to obtain information concerning the possibility of the disposition of depleted uranium oxide at the Envirocare facility and an approximate cost that Envirocare would likely charge. Mr. Simonsen said that acceptance of depleted uranium oxide was within their license and the disposal method would be in a rectangular shallow land fill cell with a cap (a Class A disposal cell). Mr. Simonsen stated that they would need additional information to determine approximate processing and disposal cost and would send ATL the appropriate form to fill and send back to Envirocare. It was emphasized to him that this request was to provide information for a Draft Environmental Impact Statement in support of the licensing review by the NRC.
