KING OF PRUSSIA, PENNSYLVANIA 19406-1415

August 27, 2004

Docket No. 030-17822
Control No. 135515

License No. 52-13732-02

Carlos R. Romaguera, M.D.
#67 De Diego Street, Box 3246
Mayaguez, PR 00709

SUBJECT: ISSUANCE OF LICENSE AMENDMENT, CONTROL NO. 135515

Dear Dr. Romaguera:

This refers to your license amendment request. Enclosed with this letter is the amended license. We have placed your license into a storage only pending disposition category. This requires you to make good-faith efforts to dispose of your eye applicator. The license has been issued with a renewal term of two years. There is no annual fee assessed for this category. You may not use the eye applicator for any purpose. It must remain safely in storage.

The U.S. Department of Energy operates an Offsite Recovery Program which is intended to remove unwanted and unclaimed sources from the public domain. You should register with the program online at www.orsp.lanl.gov. The program has removed or recovered sources in Puerto Rico in the past.

As assistance to you, we can offer these individuals/companies who may have an interest in buying or being paid to acquire your source. It is up to you to contact these or any other individual you desire to dispose of your source. Each of these individuals will ask you for calibration certificate and other information about the source. Prior to transferring the source to anyone, you must verify that the individual has a license which authorizes the possession of the amount of radioactive material. Please follow the instructions in 10 CFR 30.41 in this matter.

- A. Mr. Tom Seminoff - tna.inc@castcom.net, fax 562-804-6178. Mr. Seminoff will request you to provide him with Manufacturer, model number, serial number, age, current activity and condition.
- B. AEA Technology/QSA - rusty.barrett@aeat.com fax 225-756-0365, he will ask for the same information as above
- C. Isotope Products Labs: email wthorpe@isotopeproducts.com
- D. Sr. Pablo Jimenez - Pan Am World Health Organization 202-974-3605; fax 202-974-3610.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

In accordance with 10 CFR 2.390, a copy of this letter will be placed in the NRC Public Document Room and will be accessible from the NRC Web site at <http://www.nrc.gov/reading-rm.html>.

Thank you for your cooperation.

Sincerely,

Original signed by David J. Collins

<p>6. Byproduct, source, and/or special nuclear material</p> <p>A. Strontium-90 permitted by 10 CFR 35.400</p>	<p>7. Chemical and/or physical form</p> <p>A. Sealed source registered pursuant to 10 CFR 32.210 or an equivalent Agreement State regulation</p>	<p>8. Maximum amount that licensee may possess at any one time under this license</p> <p>A. 4.44 gigabecquerels 120 millicuries</p>
<p>9. Authorized use:</p> <p>A. Storage pending disposal</p>		

CONDITIONS

10. Licensed material may be stored only at 67 De Diego Street, Mayaguez, Puerto Rico.
11. The Radiation Safety Officer for this license is Carlos R. Romaguera, M.D.
12. The licensee will take all actions that are within its ability to dispose of its material, notifying the U.S. Nuclear Regulatory Commission within 30 days if disposal is achieved.
13. The licensee is authorized to transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."

Amendment No. 4

14. Sealed sources or detector cells containing licensed material shall not be opened or sources removed from source holders by the licensee.
15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those procedures that are required to be submitted in accordance with the regulations. Additionally, this license condition does not limit the licensee's ability to make changes to the radiation protection program as provided for in 10 CFR 35.26. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
