CHAIRMAN REC'D
04 SEP -8 AM 9:38

Governor Bill Richardson
Office of the Governor
State Capitol
Room 400
Santa Fe, NM 87501

Dear Governor Richardson:

I would like to thank you for your continuing support of the National Enrichment Facility. As you are aware, the project is extremely important to the citizens of Lea County and New Mexico. I have enclosed a letter signed by over 500 citizens as further evidence of our commitment to this project. I want you to always be assured that the people of Lea County want this Facility as much as ever and we are grateful for your support.

We want the NEF to be located in Lea County and the sooner – the better. Again, thank you for your continued support.

Sincerely,

Harry Teague
Chairman Lea County Commission

CHAIRMAN REC'D

04 SEP -8 AM 9:39

Dear Governor Richardson,

It's been close to a year since Louisiana Energy Services (LES) announced the site for the National Enrichment Facility (NEF) outside Eunice, New Mexico. Support for the construction of the NEF has only become stronger.

As residents of Lea County, we want you to know that we will continue to support the NEF and the important role it will play in long-term growth of our economy.

We are also confident that the Nuclear Regulatory Commission (NRC) licensing process and the state permitting process will result in a safe and environmentally friendly facility.

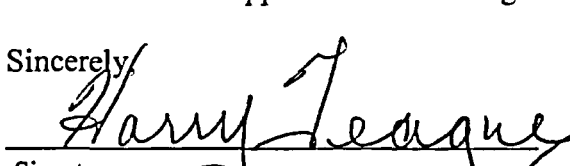

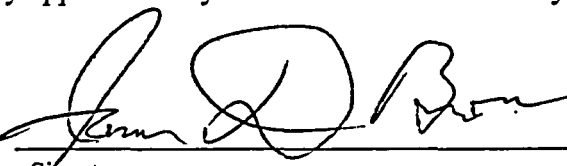

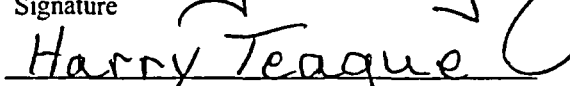

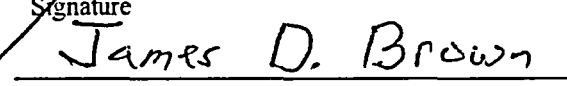

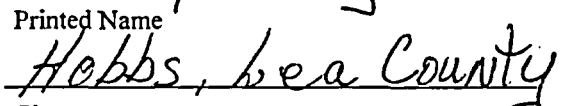

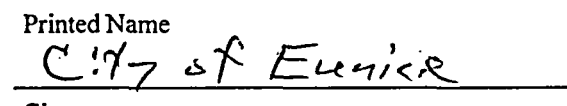

As you know, however organizations based outside of Lea County and New Mexico are participating in the NRC hearing process. These Washington, DC based anti-nuclear groups want to delay the licensing for the NEF and hope their efforts will stop the NEF project altogether. It is clear that they are not interested in what the majority of Lea County's residents want or what is good for New Mexico. They have distributed misleading information in hopes to gain support but thus far have failed. Of course we expect them to continue their efforts to disrupt the process.

Many residents of Lea County have been fortunate to tour in the Netherlands the model facility the NEF will replicate. This facility has been operating safely for over 30 years. The technology is safe and it has a proven record.

We believe the NEF will not only be safe, but will benefit the citizens of Eunice and Lea County, New Mexico and will be an important part of energy independence and security for the United States of America.

Your continued support of the NEF is greatly appreciated by the citizens of Lea County.

Sincerely,
