Mr. Monninger:

September 16, 2004

Subject: Docket # 71-9292, Renewal Request for Certificate of Compliance USA/9292/AF-85

Westinghouse Electric Co. hereby submits a request for renewal of Certificate of Compliance No. 9292 for the Model Patriot transportation package. There are no design changes to the packaging associated with this renewal request. However, three new contents descriptions are introduced, designated package loading sets #4 - #6. The justification for these is included in Section 6A of the enclosed consolidated license application.

The enclosed application is submitted as non-proprietary in its entirety. It contains editorial changes which identify the license owner as Westinghouse. Also included are Westinghouse license drawings, which compare identically with the earlier license drawings. Section 6A is the only new section. Technical modifications were not made to any other section of the application.

Please direct any questions to the undersigned at (803) 647-3552.

Sincerely,

WESTINGHOUSE ELECTRIC COMPANY, LLC

A handwritten signature in cursive script, reading "Norman A. Kent".
