Page Revision for Point Beach Nuclear Plant Security Plan

The Nuclear Regulatory Commission (NRC) conducted a routine safeguards inspection of Point Beach Nuclear Plant (PBNP) during August 2004. During the course of that inspection, a question was raised regarding personnel egress from vital areas in emergencies. In response to the question, a change was made to the PBNP Security Plan on August 19, 2004.

In accordance with the provisions of 10 CFR 50.54(p), enclosed is a revised page to the PBNP Security Plan. The change is being submitted within 60 days as required by 10 CFR 50.54(p) as the change does not decrease the effectiveness of the Security Plan.

Dennis L. Koehl
