RE: License No. 37-00030-02 Amendment Request

Dear Mrs. Miller:

03005930

After the meeting between the NRC, EPA and PADEP radiation group, the consensus was that the EPA would be in charge of the silo waste in the pole building as soon as Safety Light Corporation moves the waste into the pole building. With this being imminent, SLC wishes to withdraw the amendment request in the letter sent to you dated January 26, 2004 for the POLE BUILDING CONTROL PLAN.

If you have any questions, please contact the undersigned.

Very Truly Yours,

Larry Harmon,
Plant Manager
