SUBJECT: Confirmation of Implementation of April 29, 2003, Orders for the Fort Calhoun Station Unit No. 1 of the Omaha Public Power District

The NRC issued References 2, 3, and 4 for the Fort Calhoun Station Unit No. 1 (FCS) of the Omaha Public Power District (OPPD). In addition to other requirements, References 2, 3, and 4 required nuclear power plant licensees to revise their physical security plans, safeguards contingency plans, and security force training and qualification plans; submit those plans to the NRC for approval by April 29, 2004; and complete implementation of those plans by October 29, 2004, unless a request for a schedule extension for one or more elements of those plans was approved by the NRC.

On October 18, 2004, OPPD submitted a supplemental response in Reference 5 that contained the Physical Security Plan, the Safeguards Contingency Plan, and the Training and Qualification Plan as required by Reference 3 for FCS. In Reference 6, the NRC issued a Safety Evaluation Report documenting the NRC's review and acceptance of those plans. Section III.C. of Reference 3 required OPPD to advise the NRC when implementation of the NRC approved physical security plans, safeguards contingency plans, and general training and qualification plans has been accomplished. Section III.C.2. of Reference 2 required OPPD to advise the NRC when full compliance with the requirements in Attachment 2 to Reference 2 has been achieved.

OPPD hereby certifies that those conditions have been met and the exercise of enforcement discretion pursuant to References 2, 3, and 4 during the transition period will no longer be necessary.

I declare under penalty of perjury that the foregoing is true and correct. (Executed on November 8, 2004.)

No commitments are made to the NRC in this letter. If you have additional questions, or require further information, please contact Thomas R. Byrne at (402) 533-7368.

Sincerely,

Ross T. Ridenoure
Vice President
