7. GE Morris Operation Emergency Plan NEDO-31955

Dear Mr. O'Brien:

This letter serves as a reminder that GE Morris Operation has scheduled an Emergency Plan exercise for Friday, December 3, 2004 at 1300 hours. The exercise shall satisfy the requirements of 72.32(a)(12).

The exercise shall simulate what we believe to be a potential incident, a worker injured in a radiologically contaminated area at Morris Operation. We do not intend to have any outside agencies (fire department, EMT, hospital, etc.) respond to the incident.

You and your staff are invited to participate in the critique session immediately following termination of the exercise.

Please call if there are any questions.

Sincerely,

E. W. Secko
Regulatory Compliance Manager
