SUBJECT: PUBLIC MEETING SUMMARY (LICENSEE PERFORMANCE REVIEW)  
PORTSMOUTH GASEOUS DIFFUSION PLANT - DOCKET NO. 70-7002

Dear Mr. Brown:

This letter refers to the public meeting conducted on November 9, 2004, to discuss our review of your performance in conducting NRC-certified activities at the Portsmouth Gaseous Diffusion Plant. Your performance was evaluated in the areas of safety operations, radiological controls, facility support, and licensing activities covering the period from October 1, 2002 to August 7, 2004. The meeting also afforded you the opportunity to provide feedback to the NRC regarding your self assessment and perception of the NRC performance review. The meeting was beneficial and provided the NRC with an acceptable level of confidence regarding your plans to improve your performance in the implementation of radiation protection program requirements.

The names of participating attendees at the meeting and a copy of the presentations are enclosed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's Agency wide Document Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Please note that on October 25, 2004, the NRC terminated public access to ADAMS and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the Public Document Room pending resumption of public access to ADAMS. The NRC Public Documents Room is located at NRC Headquarters in Rockville, MD, and can be contacted at (800) 397-4209.
